

Brad Kornum, President
Preconstruction Manager for Graham Construction & Engineering Inc.

Brad has been directly involved with the construction industry for nineteen years and with Graham since 2007, where he has had the privilege of gaining experience working on Commercial, Civil and Infrastructure projects. He began as a laborer, evolved into the role of a project coordinator, to senior estimator, and Manager of Business Development for the Saskatchewan region. He is currently the Preconstruction Manager.

Brad has been an RCA Director since 2018 and joined the Board because he wanted to learn more from other professionals in the industry and be a part of the conversations driving the industry forward. Through serving he hopes to support the leaders of the RCA and stay true to the core values the RCA provides the membership.

We look forward to your leadership as the new Board Chair in the coming year.
