

Cam Thick **Alliance Energy Ltd.**

Cam Thick is an Estimator/Project Manager with Alliance Energy, one of the largest Saskatchewan owned electrical contractors. Cam has 22 years of construction experience, starting with Alliance Energy as an apprentice in 2001 and completing his Journeyperson Red Seal Certificate in 2005. After obtaining his Journeyperson certificate he continued as a member of the service team with Sun Electric (now Alliance Energy), but was offered an opportunity shortly after to move into the office as an estimator, which eventually included project management.

Cam continuously pursues opportunities to broaden his knowledge of construction and business. In addition to attending many industry-specific courses, Cam has also

obtained a Business Certificate and completed the Applied Project Management Certificate program through Saskatchewan Polytechnic.

Cam understands the importance of networking and collaborating with industry partners. He is a strong supporter of RCA and SKCA and other industry groups, and attends several events throughout the year. In his spare time, Cam is an avid runner and cyclist. He has completed several marathons and ultra-marathons throughout Canada and the US, and has a goal to complete a marathon in every province.

Previous board and committee experience?

Cam was a director and Board Chair for RunRegina/Queen City Marathon for 6 years, where his leadership and knowledge was instrumental in helping the organization navigate significant operational growth, transitioning the board from an operational to governance board, and developing new policies and procedures. As someone active in the running community, it was a rewarding experience to be able to give back and be a part of shaping the organization for future runners.

Cam is also a director of Electrical Contractors Association of Regina, sits on their scholarship committee and has been actively attending their meetings since 2014.

Why am I interested in serving on the Regina Construction Association board?

I am running for a position on the Regina Construction Association as I am interested in being an active member in the growth and change of construction. I am prepared to dedicate my time, be accountable to the membership, and to contribute and improve our industry. As a board member I want to have a better understanding of the challenges, collaborate with others, and work together to advance the association and construction industry.
