

## **Kyle Kendel** **Heidelberg Materials** **Limited Canada**

I am honored to have joined Heidelberg Materials, formerly known as Inland Aggregates, in 2004 as an aggregate dispatcher. Since then, I have gained a wealth of experience in the Commercial, Residential, Civil, and Public Construction industries and today, I am proud to serve as the Senior Sales Representative of Heidelberg Materials Concrete & Aggregates in Southern Saskatchewan. With 20 years of experience in this industry, I have seen firsthand the importance of strong leadership, effective communication, and collaboration in achieving success. This is why I recently completed a Professional Leadership certificate from the

University of Regina and Supply Chain Management courses at Athabasca University. Through these courses, I have gained a wealth of knowledge and expertise in leadership, coaching, mentoring, conflict resolution, negotiation, and collaboration - skills that I believe will benefit the association and its members.

My board experience includes serving as a Director for the Regina Construction Association (2021-2023), a Director for the Regina East Zone Youth Soccer Association (REZYSA) since 2014, an Associate Director, and Honorary Secretary for the Saskatchewan Roofing Contractors Association (2015-2016), and as the Secretary of the Heavy Equipment and Aggregate Truckers Association of Manitoba (2012). I take pride in my community involvement and strongly believe that community involvement is key to promoting growth.

My wife Shari and I are both actively involved in School Community Councils, with Shari serving as Treasurer, Registrar, and Scheduler for REZYSA since 2013. We are also involved in various other capacities, including Chair, Vice Chair, Special Project Coordinator, Fundraising Coordinator, and Events Coordinator. We take pride in our involvement and appreciate others who share the same vision.

At Heidelberg Materials, we are part of a group of companies that supply aggregates, ready-mixed concrete, precast concrete products, and cement to the Regina area. We have been a proud Platinum sponsor of the Regina Construction Association for many years and fully support the association's initiatives.

I am excited about the opportunity to continue serving the members of the Regina Construction Association as a member of the board of directors. As a professional with a proven track record of leadership and community involvement, I am committed to working closely with my fellow board members to advance the association's goals and to promote the continued growth and success of the construction industry in Regina and beyond. I believe that my experience, expertise, and commitment to community involvement make me an ideal candidate for the board of directors of the Regina Construction Association. I look forward to the opportunity to continue serving the association and its members and to working together to achieve our shared goals.
